

Supporting the United Way

As published December 22, 2009

Lumsden & McCormick is pleased to announce that we have once again contributed to the annual United Way campaign. This year's pledge drive raised over \$31,000, a \$600 increase from 2008 with a record number of first time donors contributing. We wish to thank our employees who contributed and gave back to Live United and supported the 2009 United Way Campaign.

We are also pleased to announce that Paul Herlan, Director of Business Development, was a winner in the United Way annual prize giveaway. Paul won a \$1,000 gift card to Wegmans. Paul (pictured here with John E. Oehler, CPA, Managing Partner) accepted the prize on December 15 at the United Way headquarters on Delaware Avenue.

Lumsden & McCormick is pleased to contribute to the United Way and support its new leadership under the direction of Michael Weiner. Now more than ever, a gift to the United Way ensures that people in the WNY community have access to the "building blocks" for a better life: Education, Income, and Wellness – and in turn, have the opportunity to flourish and give back to the community. Through your generosity, United Way inspires new partnerships, delivers financial resources, and ensures a return on your investment so that consumers benefit and the community thrives. To learn about the United Way go to www.uwbec.org.
